SUMMARY FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2016

ABRIDGED AND PUBLISHED IN ACCORDANCE WITH ARTICLE 145 OF THE COMPANY'S ARTICLES OF ASSOCIATION

Chairman's abridged commentary

Kenya's economy remained fairly stable growing by an estimated 5.6% in 2015 compared to 5.3% in 2014. The performance was driven by a stable macroeconomic environment and significantly improved performance of agriculture, construction, finance, insurance and real estate sectors.

The ICT sector growth slowed to 7.3% in 2015 compared to 14.6% in 2014. The growth was on account of resilient expansion in mobile telephony network and increased uptake of internet services. We remain confident that the sector is on course to attain the Vision 2030 target of contributing 10% to the country's GDP by 2017.

Safaricom and other players within the mobile telecommunications sub-sector continue to contribute substantial gains to the economy.

The regulatory environment remained an area of importance to our operations in the financial year. The Communications Authority of Kenya (CA) in December 2015 commenced the process of reviewing Regulations in addition to the proposals introduced in 2014. These new Regulations include Infrastructure Sharing, E-Commerce, Universal Service Fund (USF), Cyber Security and Broadcasting. We continue to engage the CA in this process while supporting the development of a Regulatory Framework that promotes investment and innovation in the telecommunications industry as well as a sustainable business environment in accordance with international best practices.

Safaricom shares remained resilient for the year under review. Our dedication to our strategy has yielded a strong set of financial results, generated significant free cash flow and is a confirmation of our continued commitment to generating value for our shareholders.

In light of the strong financial performance in the past year, the Board recommended a dividend of Shs 0.76 per share, an increase of 18.9%. On approval by shareholders, we will pay out a dividend of Shs 30.48bn, which represents 80% of our net income, for the year ended 31 March 2016.

Our commitment to continue transforming lives remains strong and with our strategy in place we are confident that we shall continue creating value for our shareholders and customers.

CEO's abridged commentary

Our continued focus on the three strategic pillars; putting customers first, providing relevant products and enhancing operational excellence, resulted in an 8% growth of our loyal customer base generating strong financial and commercial performance.

We realigned our sales and operations teams to be independently managed in six regions. This, in addition to the Shs 32.1bn investment in the network, has led to improved data speeds and network quality. We commissioned independent drive tests in March 2016 to measure key quality metrics such as dropped calls, call set-up success, voice quality and data speeds. The tests show that our network delivers the best voice quality and faster data services than our competitors.

Service revenue grew by 13.8% to Shs 177.8bn. Voice service revenue which now represents 51.1% of our service revenue grew by 3.9% to Shs 90.8bn. Nonvoice revenue representing 48.9% of service revenue up from 44.1% last year grew by 26.3%.

Messaging revenue grew by 10.6% to Shs 17.3bn due to an increase in the number of SMS users benefiting from affordable SMS bundles and targeted promotions.

M-PESA revenue grew by 27.2% to Shs 41.5bn driven by a 19.8% growth in 30-day active M-PESA customers to 16.6m and a 17.5% growth of our M-PESA agent footprint to 100,744. Lipa na M-PESA payments made at 44,000 merchant outlets in March grew by 74% to Shs 20bn.

Mobile data revenue grew at 42.7% driven by a combination of a 21.5% increase in 30-day active mobile data customers to 14.1m, an increased uptake of data bundles and a growth in smartphone penetration. In March 2016 we had 7.9m customers on 3G and 4G enabled devices, of which 0.7m are 4G handsets. Fixed service revenue grew by 22% to Shs 3.8bn on account of increased number of fixed customers to 10,490 up 21.6%. We now have 1,018 buildings and 1,795 homes connected to high speed fibre.

The business once again delivered encouraging results, supported by growth across all our revenue streams and a focus on cost efficiency pushing EBITDA margin up to 44.6% and free cash flow increase of 10.3% to Shs 30.4bn.

We continue to ensure our customers have the best network through expansion, upgrades and quality improvements. We plan to leverage our regional operations structure to understand our customers' needs and aspirations even better.
